

Aylesbury High School | #AHSWalksTall

Developing uniquely talented young adults, who are independent, strong and confident

Tuesday 11 February 2025

Dear Parents/ Carers

As part of our ongoing commitment to broadening the education of our younger students in Science, we have the opportunity of taking 24 year 8 Science students to Aylesbury Grammar School on Friday 14 March for a 'Chemistry At Work Day'.

This event is primarily funded by the Royal Society of Chemistry and is coordinated by Derek Jones, who arranges guest speakers and demonstrators. It is free of charge, there are no transport costs as students can walk to the school and it will run from 10.00 to 15:30 so there are no issues with buses. Mrs Nicholls will be accompanying the students for this day. Students will meet in the main school reception at 9.45 and will need to inform their period 1 teachers ahead of time that they will be leaving for this trip.

If your daughter is interested in attending could you please [complete this form](#). This will be open until **Thursday 13th Feb at 9am**. In the event that we have more than 24 students interested, we will draw names from a hat at random. The final list of students attending will be notified in the afternoon on Thursday 13th Feb.

Yours sincerely

Rhian Nicholls
Head of Chemistry
Curriculum Coordinator
